

I wish to voice my support of K-LOVE radio because of it's positive affects in my home and city. It is a family freindly venue that has been a very positive influence for my children, as well as numerous others, and it's loss in our community to a proposed LPFM broadcaster would be great.

K-LOVE provides positive, uplifting broadcasting that has reached out to thousands and improved their lives. It is a strong voice of compassion and virtue that draws people to look at life with more optimism for their own lives, as well as how they can touch someone else's life.

Please do not replace K-LOVE in my community with some other form of broadcasting that won't be as effective as K-LOVE already has proven to be.

Thank You
